

# Revita-N: Premium Nitrogen-Fixing Bacteria

## About Revita-N

Revita-N contains a combination of soil microbes, including nitrogen-fixing bacteria, to help feed your crops naturally and boost native soil biology.

Revita-N helps to establish beneficial soil biology with aerobic and anaerobic soil microbes. For the producer, this biological boost can mean improved soil health, less applied nitrogen, and lower input costs.

## Use Instructions

Revita-N has a 9 (high) compatibility rating and works with existing fertility programs. Revita-N is used in soil or in-furrow applications. The typical use rate is 16 oz per acre.

## Use Tips

Do not mix with fungicides. Use within 72 hours of tank mixing.
