

Exodus: A Biological Approach To Residue

About Exodus

Exodus is a powerful biological crop residue digester designed to enhance soil fertility by unlocking vital nutrients trapped in crop residues and returning them to the soil. This process improves nutrient availability, leading to healthier soils that support higher crop yields and sustained long-term productivity.

Through its blend of beneficial microbes, Exodus breaks down crop residues efficiently and strengthens soil structure. This results in improved water infiltration, enhanced nutrient uptake, and optimized overall soil health, making Exodus an invaluable tool for boosting far efficiency and performance.

Use Rate

The optimum use rate is 12.8 oz of Exodus per acre.

2 x 2.5 gal

275 gal

Exodus

 **MADE IN USA**

Guaranteed Analysis:
Total Soil Admeadow Ingredients.....45.00%
Azotobacter Vinelandii.....300 cfu/ml
Azotobacter Chroococcum.....30 cfu/ml
Bacillus Coagulans.....20 cfu/ml
Bacillus Megaterium.....100 cfu/ml
WEIGHT PER GALLON: 8.35 lbs. @ 68° F

Recommended Rates:
12 ounces per acre.
12.8 Spring & Fall

MIXING INSTRUCTIONS:
CAN BE TANK MIXED WITH BIOLOGICALS.
IF THERE IS A QUESTION, PERFORM A JAR TEST.

CONDITIONS OF SALES: Genesis Ag, LLC warrants that this product conforms to the chemical description on the label thereof and is reasonably fit for purposes stated on the label when used in accordance with directions under normal use conditions. Crop injury, product use ineffectiveness, or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of seller. In no case shall Genesis Ag, LLC or its distributors be liable for consequential, special or indirect damages resulting from the use, handling, or shipping of this product. All such risk shall be assumed by the buyer and user.
