

RizNate™ may be used on untreated seed or seed that has been treated with a fungicide or insecticide. Avoid skin contact or breathing of dust, and if the seed has been pretreated, follow the precaution statements of other treatments. It is recommended that all applicators wear standard protective clothing and equipment. If allergic to molds and/or fungi, take precautions to avoid contact with eyes and skin. In case of contact with eyes or skin, immediately flush the exposed area with water then seek medical attention if irritation develops or persists.

RizNate™

genesis **AG**™

NET WEIGHT: 2.5 gallons (9.46 L) | 20.85 lbs. (9.45 kg)

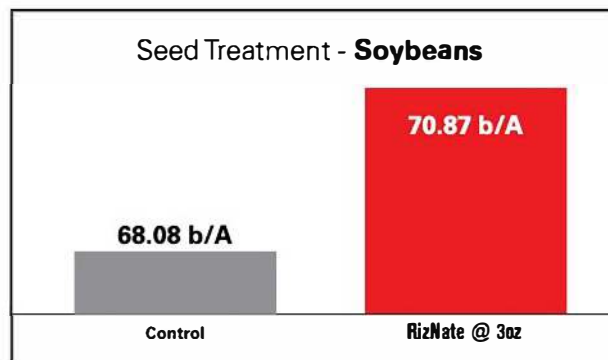

\$3.94
per Acre

Record Breaking Soybean Inoculant.

- Compatible with other seed treatments
- "Free living" N-fixers aid Rhizobia feeding Nitrogen to your beans
- Mycorrhizal fungi enhance water & nutrient uptake

"We put the riznate in furrow. When it gets to the 7th trifoliolate, and it's still got the cotyledon leaves, we know we've done something. We've improved the soils right there in the root zone."

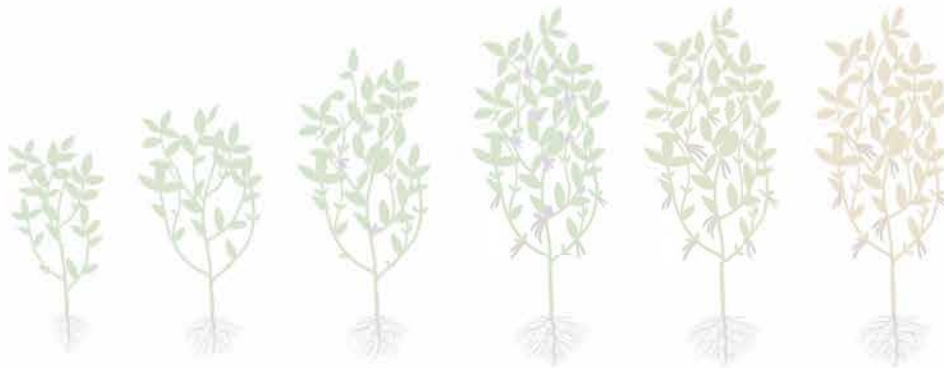

– **DAVID HULA**, Charles City, VA

Fully replicated four state trial in 2018 (NE, IA, IL, IN)

APPLICATION RATES (PER ACRE):

- 1 Seed treatment: 3 oz per unit
- 2 In-furrow: 8 oz
